## ENTIRE TIME OF SENATORS

TAKEN UP WITH RATE BILL DEBATE.

Raynor Chief Speaker of Day—Various Subjects Discussed in House—Other News From Washington.

Washington, March 14.—The railroad rate bill to day reached the controversial stage in the senate. The question came up in regular order of business shortly before 2 o'clock and held the floor until the doors were closed for a brief executive session a few minutes after 5 o'clock. Raynor was the chief speaker of the day and the debate that took place was provoked by some of his utterances. Among the senators who were aroused by him were Foraker, Lodge and Dooliver. Both the Ohio senator and the Massachusetts senator took exception to Raynor's contention that the railroads have interfered in the framing of the bill, and Foraker also expressed himself as dissatisfied with the information that the railroads are represented on the floor of the senate. Dooliver expressed displeasure with the idea for amendments and went so far as to say that the help of such friends as Raynor could very well be dispensed with.

Other senators who participated in the debate were Aldrich, Tillman and Knox. Knox freely expressed his opinion that the bill would be unconstitutional without a provision for a review of the commission's findings by the courts, and Aldrich stated his belief that he and Raynor were not greatly at variance in their views. He declined, however, to agree to accept amendments which were introduced by the Maryland senator.

Tillman reiterated his objection to the bill and indulged in some characteristic phrases in stating his position, concluding with the remark that he believed the bill could be so amended as to make it acceptable.

The argument of Raynor was directed in favor of the general proposition that congress has the right to fix rates, but that the bill should be so amended as to dispense with the suspension provision. He also advocated other amendments.

HOUSE.

The second day of general debate on the legislative bill developed a limited discussion of the retirement of aged clerks, interspersed with a speech on the statehood bill by Baucous of Wisconsin, on restriction of immigration by Gardner of Massachusetts and the presentation of reasons why the jurisdiction of federal courts should be restricted in certain cases where its jurisdiction was not acquired because of citizenship of litigants being in different states, by Garrett of Tennessee.

ELECTION INVESTIGATION.

Representative Hardwick of Georgia will introduce to-morrow a bill empowering the house committee on election of president, vice president and congressmen to summon and swear witnesses in an investigation of expenditures in the last three presidential campaigns. This investigation is provided for in a bill introduced by Cochran of New York.

MINORITY REPORT.

Representative Bartlett of Georgia filed the report of the minority of the house committee on interstate and foreign commerce against the pure food bill to day. The report is signed by Adamson of Georgia, Russell of Texas and Bartlett of Georgia. The opposition to the measure is based on the opinion that the federal government has no right to assume the regulation of the sale and branding of food, which are held by the majority to be essentially within the police powers of states. The report states dissenting members favor laws against the sale of impure and adulterated foods, but believe such laws should be made by states.

CAPITAL NOTES.

Representative Hearst of New York introduced a bill to day prohibiting secret rebates, discriminations and concessions, and providing imprisonment for one to ten years as punishment for giving or receiving concessions or rebates.

CONFIRMATIONS.

James Clarkson, surveyor of customs at the port of New York.

Illinois postmasters—A. R. Wilcox, Minooka; E. Needham, Virginia.

DEPEW SERIOUSLY ILL.

Washington, March 14.—Senator Depew, who has been variously reported at different sanitariums, is at his home in New York city, and is a very sick man.

Senator Platt, who made this statement this morning, says that Depew is recovering no callers whatsoever. He himself in New York last week endeavored to see his colleague, but without success.

It is understood that Depew will not return to Washington this session. Platt denies a rumor that Depew and his wife have separated.

LICENSE FIGHT IN PEORIA.

Peoria, March 14.—At a special session of the city council called for Friday night, Alderman D. S. Long will introduce a resolution increasing the saloon license from \$500 to \$1000 a year. The increase of the license in this city has been considered

for several months and was given definite shape by the Chicago high license fight. There are 235 saloons in Peoria, and the backers of the scheme hope to increase the revenue of the city over \$100,000 per year. The proposition is being taken up by the women's clubs and ministers of the city. The issue is expected to develop a hot fight.

DEATHS.

New York, March 14.—John Jacob Anderson, author of Anderson's school histories, is dead, aged 88.

Notre Dame, Ind., March 14.—Rev. Francis Molloy, aged 67 years, rector of St. Joseph's hall and dean of the school of languages of the School of Notre Dame, died suddenly on the college campus to day from a stroke of paralysis. Deceased was a noted linguist.

Green Lake, Wis., March 14.—John W. Norton, veteran of the civil war, is dead, aged 66 years. He was one of the squad that captured Jefferson Davis and it was with the reward money received for his part in that event that he purchased his home in Dartford.

Washington, March 14.—S. H. Kapfman, president of the Evening Star Newspaper company, president of the Corcoran gallery of art, and former president of the American Newspaper Publishers' association, is dead, aged 76 years.

MANY FUNERALS HELD.

Paris, March 14.—Funerals of twenty-eight victims of the mine disaster at Courrières were held Tuesday in a blinding snow storm. Eight miners, dressed in their working clothes, bore each of the stretchers on which the bodies were carried to the grave. The members of the families of the victims and their friends followed the stretchers, making a long procession of mourners. Several senators and members of the chamber of deputies attended the funerals.

## SECRETARY TAFT

Holds Conference With Brothers and Friends—Matter of Judgeship Believed Subject.

New York, March 14.—Secretary Taft was in conference in this city to day with three of his brothers and with several intimate friends. It is believed the matter of the secretary's decision as to going upon the bench of the United States supreme court was under consideration, but if any conclusion was reached by Taft no announcement of the fact will be made for several days yet. At least not until the secretary returns to Washington and his further interview with the president. In an interview Taft said his visit to New York was on business matters and that his conferences with his brothers and friends were on business. He declined to discuss the supreme court matter.

SWINDLED INSURANCE COMPANY.

Chippewa Creek, Colo., March 14.—J. McEachern has confessed that he originated a plot by which an insurance company was swindled out of \$5,000 by the substitution of the body of Robert Speed, a laborer, in the grave in which McEachern was supposed to be buried. At the funeral McEachern himself in disguise was among the mourners.

## CRUSHED TO DEATH

Milwaukee, Wis., March 14.—The closing session of the joint meeting of the State and Milwaukee Bar associations was held to day. Corporation Counsel Lewis of Chicago made sensational attacks on the courts, law, lawyers and wealthy corporations and personages of the country, whom he charged with snatching their fingers at the law and the courts, and thus leading and giving birth to insolence which lower classes exhibit for the law. On the one side, he said, there is anarchy of ignorance, and on the other insolence of ignorance. Lewis did not mince his words in criticising courts which allow powerful interests of the country escape the law, while he faulted against those lawyers whom he charged with abandoning the ideals of olden times. Revolution and anarchy, he said, will follow unless the law, the courts and the lawyers are purified.

RESENTED THE CRITICISM.

Madrid, Spain, March 14.—A nephew of General Rivera, the former commander of the Spanish troops in the Philippines, savagely assaulted Deputy Sogiano for criticising acts of the Spanish general in Cuba and the Philippines. Señor Sogiano was knocked down and lost two of his teeth.

HIGHBINDER KING SHOT.

San Francisco, March 14.—Jew Yuck, better known as Charlie George, king of the highbinders and a bad man known to the police all over the coast, was shot and instantly killed by unknown men late Tuesday night.

COASTERS INJURED.

St. Joseph, Mo., March 14.—Auntie Vocksky, aged 75 years, will die and her sister, Roga, and Aggie Burkowski and T. Seiford were probably fatally injured while coasting to night.

## WOOD ANSWERS CRITICISM

NO WANTON SLAUGHTER OF MOROS.

Women Dressed and Fought Like Men at Battle of Mount Dajo—General Wood's Cablegram Made Public.

Washington, March 14.—A cablegram from General Wood regarding criticisms of the recent battle of Mount Dajo on the island of Jolo, together with correspondence between the president and Secretary Taft on the subject, were made public to day. General Wood's telegram was in answer to one sent to him at the direction of Secretary Taft, who called attention to criticisms of wanton slaughter of Moros and asked him to send all the particulars. Wood's reply denies that there was any wanton killing and says a considerable number of women and children were killed in the fight because they were actually in the works when assaulted, and that children were used as shields. The reply was sent by Secretary Taft to the president with a note, in which the secretary says Wood seemed to him to show most clearly that the unfortunate loss of life was wholly unavoidable, to which the president replied that Wood's answer "is, of course, entirely satisfactory."

General Wood's dispatch is as follows: "In answer to the secretary of war's request for information, March 12th: I was present through practically the entire action and inspected the top of the crater after the action was finished. Am convinced no man, woman or child was wantonly killed. A considerable number of women and children were killed in the fight, the number unknown, for the reason that they were actually in the works when assaulted, and were unavoidably killed in the fierce hand to hand fighting which took place in the narrow fighting places. The Moro women wore trousers and were dressed and armed much like the men, and charged with them. Children were in many cases used by men as shields while charging upon the troops. These incidents are much to be regretted, but it must be understood the Moros, one and all, were fighting not only as enemies, but as religious fanatics, believing paradise to be their immediate reward if killed in action with Christians. They apparently desired that none be saved. Some of our men, one a hospital steward, were cut up while giving assistance to wounded Moros, by the wounded, and by those fleeing death for the purpose of getting this vengeance. I personally ordered assistance given wounded Moros and that food and water should be sent them with medical attendance. In addition friendly Moros were at once directed to proceed to the mountains for this purpose. I do not believe that in this or in any other fight any American soldier wantonly killed a Moro woman or child, or that he ever did, not excepting unavoidably in close action. The action was most desperate and it was impossible for men fighting literally for their lives in close quarters to distinguish who would be injured by fire. In all actions against Moros we have begged the Moros again and again to fight as men and keep women and children out of it. I assume the entire responsibility for the action of the troops in every particular and if any evidence develops in any way bearing out the charges will act on it."

## WRECK ON WAHASHI

Litchfield, Ill., March 14.—Running ten minutes late, Wahashi fast mail No. 6, which left St. Louis at 2:30 this morning, struck a loaded coal car on a siding to near the main track, near Mount Olive, at 3:30 o'clock. Fireman Henry Keppel of Decatur, was severely injured about the head, and Engineer Robert Zink, also of Decatur, was injured about the legs and internally. One mail car was wrecked and tons of mail destroyed. The injured were taken to a hospital, when it is thought Keppel will die.

## REBEL LEADER EXECUTED

Hong Kong, March 14.—The Chinese authorities have extradited and beheaded Kwangsei, the rebel leader, and three other men who were implicated in the attack made on the house of Dr. Andrew Beattie, American missionary at Paili.

Cable reports from China Feb. 3 told of an attack made on the missionary station headed by Dr. Beattie. The missionaries were bound by the robbers and their clothes watches and silver, valued at \$100 were stolen.

## PLOT TO ASSASSINATE

New York Police Official Said to Have Planned for Murder of Dr. Parkhurst.

New York, March 14.—An alleged plot to assassinate Rev. Dr. Charles H. Parkhurst, following the recent municipal election in this city, inspired, it is asserted, by a police official and in revenge for raids made on certain places by agents of the society for the prevention of crime, known as the Parkhurst society, was revealed to day when District Attorney Jerome summoned to "John Doe" proceeded, being Acting Captain John H. Shields of the West One Hundredth street police station, John Phelan, a plain clothes policeman, and two civilians, Richard Wilson and L. Rogers.

Rogers, one of the witnesses, and a man named Kelly were employed during the last campaign by the "Citizens' union." A few days after the election Rogers told Kelly, it is alleged, of a plot to murder Parkhurst. According to statements attributed to Rogers, he said he was approached by a policeman and asked if he would undertake the task of killing Parkhurst. It is declared the policeman said a police official would pay \$500 for the work, and Rogers asked Kelly if he was willing to go into the scheme, taking for his part \$200, while he (Rogers) would get the remainder of the sum. It is further alleged that Rogers saw this police official and talked the matter over with him at length, but finally came to the conclusion that he would not resort to murder.

## NARROW ESCAPE

Lives of Street Car Passengers Saved by Presence of Mind of Bridge Tender.

Chicago, March 14.—A crowded electric car on North avenue ran over the abutment of a temporary bridge over a branch of the Chicago river to night and a serious accident was averted only by the presence of mind of the bridge tender. The bridge, which was swinging open, was turned back so that the car, instead of plunging into the river, which is twenty-two feet deep at that point, struck a scow which supports the bridge. The rear wheel remained on the truck, while the front end of the car rested on the scow, fifteen feet below the street level. The passengers were piled up against the front door of the car and in the struggle to escape several were injured—one, Mrs. Elizabeth Blum, 61 years old, may be fatally injured. He had recently undergone an operation and the shock caused the wound to reopen.

## WORK DONE AT KANSAS CITY.

Kansas City, March 14.—The interstate commerce commission to day completed its investigations here into the methods of the Standard Oil company and railroads in dealing with independent oil producers of Kansas. The commission will probably resume the investigation in Washington and may summon before it there presidents of railroads and coal companies. These men may be ordered to show their companies' records and to

show stock and bond ownership of all affiliated coal companies and manufacturing interests and methods by which transportation departments of different railroads prevent other coal companies from operating in Kansas.

## FORWARD MOVEMENT

Washington, March 14.—Two hundred and thirty persons, a number of them prominent in public life, attended a dinner to night given in behalf of the forward movement of the George Washington university by the trustees and alumni of that institution. Among those who made addresses were Charles W. Needham, president of the university, Andrew D. White, formerly ambassador to Germany, and M. J. Janssen, the French ambassador. Prof. Richard T. Ely of the University of Wisconsin, spoke upon opportunities in Washington for a school of politics.

## NO PROSPECT OF WAR.

St. Louis, March 14.—General Corbin in an interview here to day reiterated his recently expressed opinion that there is no prospect of war with China, and said there is no feeling of hostility on the part of China against Americans. Whatever outrages have been committed have been by pirate robbers. He admitted there was an anti-foreign feeling among the Chinese, but denied that it was anti-American.

## BILLIARD TOURNEY.

Chicago, March 14.—The second series of matches in the billiard tourney for the national amateur chess "2X" championship was completed to day, and as a result J. E. Poggenburg of New York and E. W. Gardner of Passaic, N. J., are in the lead for honors, each having won both of his games. Gardner took the measure of Poggenburg and Poggenburg disposed of E. F. Cookin to day.

## GASOLINE EXPLOSION.

Crookston, Minn., March 14.—The explosion of a gasoline stove in the Crookston Dye and Cleaning house, owned and operated by John Markoff, perhaps fatally burned the proprietor and Miss Ida Sanden, both of whom will at least be disfigured for life.

## SHOT WHILE READING BIBLE.

La Crosse, Wis., March 14.—John S. Sharp, probably the wealthiest man in southern Georgia, was shot dead in the sitting room of his home while he was reading the Bible. The assassin, it is believed, thrust his gun through an open window and fired two loads of buckshot

## NELSON HAD BEST OF FIGHT

McGOVERN ALL BUT KNOCKED OUT

Both Fighters on Feet at End of Sixth Round, Therefore No Decision Rendered—The Fight by Rounds.

Philadelphia, Pa., March 14.—"Batting" Nelson had the advantage of Terry McGovern in a six round bout here to night. For the first three rounds the fight was a disappointment. There were scarcely half a dozen solid blows struck, the men wrestling from one end of the ring to the other, with the referee power loss to separate them.

At the beginning of the fourth round the men began to fight as though they meant business and at the close of the fifth McGovern went to his corner in distress. In the fifth Nelson did as he pleased with his opponent, and it is doubtful if McGovern could have stood the grating for another round.

Nelson deserved the decision, but as no decisions are rendered when both men are on their feet the fight is classed as a draw.

McGovern entered the ring at 10:30. His seconds were Hughie McGovern, Joe Humphries, John Burdick, amiel Harris and "Terry" Lee. Nelson came on about the same time, followed by his seconds, "Kid" Abell, "Eddie" Kelly and "Johnny" Loftis. Both men were given an ovation, preliminary preparations completed, the men called to the center of the ring, and a moment later the fight was on.

Round 1.—Nelson missed a left and both clinched and it was twenty seconds before the referee separated them. The crowd hissed and Nelson hit with a left to the head. They again clinched and the referee warned McGovern for holding. Another clinch and McGovern sent a hard left to the head. They were clinched at the bell and the crowd hissed.

Round 2.—McGovern missed a left for the wind and they began to wrestle. McGovern sent a left to the wind and right to the head. They clinched and McGovern drove his right to the head which jared Nelson, who was cautioned for using his shoulder. Nelson missed a straight left and again they clinched and were still clinched at the bell. Grounds and hisses from the crowd.

Round 3.—McGovern tried a left to the wind twice, but was blocked. They clinched and the referee could not get them to break. Nelson drove two lefts to the face. Another clinch. McGovern drove a left to the jaw and missed a hard right. McGovern upset with a hard right and sent his right to the jaw. Nelson sent a left to the head and missed a vicious left. Nelson sent another left to the face and the men were clinched at the gong.

Round 4.—McGovern swung mild with his right, but drove a left to the wind. Nelson sent a left to the face. Both men clinched and wrestled across the ring. Nelson pounded McGovern's kidneys in the clinch. Nelson sent a light left to the face. McGovern missed a swing for the jaw. Nelson growing stronger. McGovern weakening. Nelson sent a left and right to the jaw. McGovern was weak as he went to his corner.

Round 5.—McGovern sent a left to the head. Nelson countered with a left to the wind and sent a light left to the stomach. McGovern rushed to clinch and refused to break when ordered by the referee. McGovern sent three lefts to the face. When they broke Nelson drove a terrific right to the jaw, which made Mac wobble. The men clinched and as they broke away the bell rang.

Round 6.—Nelson missed a right swing and they clinched. McGovern missed a right for the wind and sent a right uppercut to the wind. Nelson sent a light left to the face and missed a terrific right for McGovern's chin. Nelson drove Mac into a neutral corner and landed two hard blows on his wind. McGovern was almost out when the gong sounded. It was Nelson's fight.

## CONSULAR SERVICE

Members of Convention Commended by Roosevelt.

Washington, March 14.—Delegates to the consular convention called on President Roosevelt this afternoon. The president addressed them briefly, commending their organization as one most likely to bring about better conditions in the consular service. He spoke of the importance of the consular service to the business interests of the country, assured the delegates he has full sympathy with the objects of their organization and declared himself in favor of better salaries for consuls in order that a higher class of men may be induced to enter the service.

## DESTRUCTION OF OCEAN STEAMER

ATTENDED BY SUFFERING AND HEROISM.

Twenty-nine of Crew Rescued, but Twenty-seven Go Down With Wreck—Details of Disaster Reach Boston.

Boston, March 14.—Suffering, mental and physical, and numerous acts of heroism in saving rarely equaled in the record of tragedy and of the sea attended the loss of the steamer British King, which on Sunday, last, in a raging Atlantic storm, foundered 50 miles south of Sable Island, and carried to death twenty-seven members of the crew. Thirteen men were rescued from the sinking vessel by the steamer Bostonia and eleven by the German tank steamer Mannheim. Five others who had been drawn down in the vortex into which the British King was engulfed, were picked up by the Bostonia from a trail left of wreckage which they had grasped after a desperate struggle for life in the whirlpool. The Bostonia arrived here this afternoon and the details of the disaster became known.

Capt. James O'Hagan, of the British King, died on board the Bostonia from the effects of terrible injuries sustained in trying to save his ship. Two lifeboats from the Bostonia were crushed to fragments and the volunteer crews which manned them were thrown into the high tumbling seas while engaged in the work of rescue, but all were safely landed on board the steamer. When the first lifeboat was lowered from the Bostonia the small craft was swept against the stern of the big ship and destroyed, and several women were bruised and killed. Yet, despite the disastrous condition of the sea, the volunteers were rescued by lines thrown out from their steamer. A second attempt to reach the sinking ship was successful and thirteen men, including Captain O'Hagan, were taken from the British King to the Bostonia. Then again a powerful billow carried the lifeboat against the side of the ship and destroyed it and the life savers were thrown into the sea to be rescued only after an hour's effort by their comrades.

Volunteers from the Mannheim, after a heroic battle with the waves, had taken off eleven men from the British King, but after this number of the steamers, in consequence of the increasing gale, could make an attempt to reach the foundering freighter. Moreover, darkness fell and it was an utter impossibility to do else but wait for the moonlight to guide them. In the darkness the British King, then waterlogged and helpless, plunged to the bottom of the ocean.

For three days her captain and crew, working against unconquerable odds, had tried to prevent their ship's destruction. Friday, during the height of the tempest, the deck load of oil barrels of the British King and all her fittings were carried aboard. The barrels and wreckage, forming into one powerful ram, were driven upon her sides with crushing force, opening up the vessel's plates and allowing the water to pour into her hold. The flow under her boilers was extinguished and the engines rendered useless by the rising water. At the end of three days, when all hands had labored ceaselessly without rest and with little food, the Bostonia and Mannheim were sighted, and to these Captain O'Hagan displayed the signal for assistance and such help as possible was given him.

## THE MINERS

Stormy Convention of Workers Predicted.

Indianapolis, Ind., March 14.—Predictions of a stormy convention of the United Mine Workers of America, beginning to-morrow, led today to be verified. From talk of delegates, there will be decided opposition toward repealing the Ryan resolution. This is the most important matter to come before the convention and there is reason to believe that a decision will not be reached for several days. Secretary Ryan of Illinois, said to night while in company with President Mitchell that there is no foundation for the report that a plan has been arranged for dissolving this resolution. This plan was said to include a request by Ryan for permission of the convention to withdraw the resolution. It is intimated that both Ryan and Mitchell will oppose repeal of the resolution so long as there is a possibility of reaching a fair settlement with it in force.

## PARKER'S OPINION.

Thinks Roosevelt Will Ask for Another Term.

Birmingham, Ala., March 14.—Judge Alton D. Parker, in an interview to day, expressed his firm conviction that Roosevelt will ask the nomination for another term as president. "While this would probably be disputed if it was reported in Washington or in other portions of the east," said Parker, "in my own mind I am satisfied that at present this is the intention of the president. In spite of the fact that when his nomination in 1901 was assured, he made the statement that under no condition would he again be a candidate, I believe Roosevelt has intended all along to again ask for the nomination."

## POLICE CHIEF FINED.

Charleston, Ill., March 14.—Chief of Police W. H. Harles was arrested and fined yesterday afternoon for violating the city ordinance, which does not allow spitting on the sidewalks. A short time ago for this offense Williams Harles caused the arrest of a son of Fountain Turner, a well to do farmer, and yesterday the boy's father caught the chief in the same act and swore out a warrant against him.

## TUCKER. Could Spell Waltz.

The late Payson Tucker, "the most popular railroad man in Maine," was in his youth more noted for his social than his scholarly abilities. One evening he was drawing up an order of dances for the club in Portland to which he belonged when one of the boys, peeping over his shoulder, began to laugh.

"Oh, look here, fellows," he shouted, "how Pays spells 'waltz'—with a c."

Tucker, earnestly examined the list. Then he said, in great indignation: "That ain't a c, you fool. It's an s!"

## BAR ASSOCIATION

Jamestown, Ind., March 14.—While nine men were sitting in a little grocery store here this afternoon, discussing the possibility of the collapse of an adjacent building which was undergoing repairs, three of them were killed and five injured by the collapse of the Old Fellows' hall, which crushed the store like an egg shell. The dead, Samuel Lewis, George Scott and Charles Hedge.

## THE PACKERS' CASE.

Chicago, March 14.—District Attorney Morrison occupied the entire day in his argument for the government in the packers' case, and he will probably speak all of to-morrow. Following the district attorney Hynes will speak for the packers and the final argument for the government will be made by Attorney General Moody.

## ARE IN TROUBLE

School Districts That Have Purchased Supplies Contrary to Provisions of Present Convict Labor Law in Quandary.

Springfield, March 14.—Sales Agent Timney, of the board of prison industries is just now receiving letters from treasurers of school districts in different parts of the state, asking his advice and sometimes his help. This is settling up time and school furniture houses are sending in their bills for goods sold last season.

In the face of the present convict labor law, which provides that certain articles must be purchased through the board of prison industries, the careful school treasurer is becoming bills for school supplies closely. The law imposes a severe penalty upon a school official who audits or pays a bill, contracted contrary to law, and it is to guard against subjecting themselves to these penalties that occasions the numerous inquiries now being addressed to Sales Manager Timney.

In several cases where school directors have purchased school furniture from other than the board of prison industries, the records of Mr. Timney's office show that requisitions as required by law had been made upon him, and releases granted, thus authorizing the purchase on the open market. In such cases the school treasurer is justified in paying the bills. On the contrary where bills have been contracted contrary to law, Mr. Timney so informs the inquirer, and refers him to the state's attorney of his county for further advice.

Already several cases have been reported where sales have been made contrary to law, and the school furniture house which sold the goods has not been paid, and, if the authorities do their duty, will be compelled to look to the individual directors for their pay, as a bill contracted contrary to law cannot be paid out of the public funds.

## PERSONS WE TALK ABOUT.

The city of Vincennes, Ind., has done honor to one great man of the west by erecting a monument to George Rogers Clark. It was this Clark, who by the capture of Kaskaskia and Vincennes, not only checked the British and Indian attacks on American settlements during the revolutionary war, but annexed to the United States the old Northwest territory, out of which five great states have been taken. William Clark of the Lewis & Clark expedition was the brother of George Rogers Clark.

Grand Duchess Marie of Russia is the only daughter of Grand Duke Paul, brother of the late Grand Duke Sergius. The former was banished from Russia after his second marriage, which was regarded as a messalliance, and his little daughter became the ward of Grand Duke Sergius, who, it will be remembered, was assassinated some months ago. The youthful grand duchess is only 15, very pretty and sweet looking, and she is generally designated the Cinderella of Russian princesses.

Mrs. Frederick Seoff, the well known philanthropist, answered at a meeting of the Daughters of the American Revolution an ancient sneer at womankind. "A man," she said, "rose in a woman's meeting and with a sneer asked why it was that men were not addicted to saying spiteful things about one another as women were. The president answered him, 'Men,' she said, 'are so busy bugging about themselves that they don't have time to attack other men.'"

An equestrian statue of Sir Redvers Buller has been erected in Exeter, Devon and the general and his wife were present at the unveiling—a rare circumstance. General Buller is 66 years old, and has a large war record, beginning in China in 1880, and closing in the war with the Boers. The Boers themselves esteem General Buller as "the one man who fought them in the open." He was the reliever of Ladysmith.

"I must confess," he said in a sudden burst of confidence, "that I'm an odd man. I long to be different!"

"Oh, this is so sudden!" exclaimed Miss Passy, throwing her arm upon his neck, for she, too, was odd and longed to be even.—Philadelphia Press.

## Had Good Cause.

"Now, then," exclaimed Papa Perkins, "what do you mean by kicking up these contortions and grimaces? Come on, out with it!"

"I wish I could," groaned the youth. "I've swallowed one of your large overcoat buttons!"

## No Poetry There.

"You know," remarked Mr. Klumsey, "they say dancing is the poetry of motion."

"Huh!" snorted Miss Grace, just recovering from a waltz with him. "But when the feet get twisted it's mere doggerel."—Catholic Standard and Times.

CELLULOSE COAL CATCHES FIRE.  
 Petersburg, Ind. March 14.—The coal room of Miss Ethel Barker, and it being over her head, caught fire, and the whole place was burned.

## THE TELEPHONE

**WAS THIRTY YEARS OLD  
 MARCH TENTH.**

**Facts Relating to Its Introduction—Visit of Inventor, Alexander Graham Bell, to Jacksonville—First Local Service.**

Thirty years ago March 10, was the day on which the first telephone message was heard by the inventor and his assistant.

The place was the upper part of a boarding house in Boston, Mass., where operations had been in progress for over a year. Alexander Graham Bell is the man whose name has been made immortal by the introduction of this marvelous means of communication. At the time of his invention he was a professor of vocal physiology in Boston university. He reasoned that several Morse dot-and-dash messages could be transmitted at the same time over the same wire.

He next endeavored to utilize the sympathetic vibration of strings attuned to each other. His experiments were at first conducted with clock springs as the main part of his apparatus. He gradually worked over into electro-magnet appliances and became convinced that the transmission of speech was a possibility. Analogous vibrations were then made his goal and on June 2, 1875, he succeeded in sending by electricity a quality of sound and in the following March the first spoken message was received by him in his apartment at the Boston boarding house. Development followed development until we behold the wonders of the present day. Long distance telephone communication was a disappointment until the inventor introduced hard-drawn copper wire. The telephone was looked upon in its infancy as a curiosity and its first appearance in many communities was through the medium of toys. To day, however, it takes its place as one of the most important cogs in the wheel of the world's industry, and is found in city and hamlet, in home and office, while its invasion of the modern church is accepted as a matter of course.

Just when the first telephone was used in Jacksonville is a matter that the writer was unable to determine with any degree of definiteness. Those who were consulted differed as to time from one to five years. The first attempt to talk over a phone was made in the Ayers building in the room now occupied by the Richardson printing office. Wellington Mayfield, at that time manager of the local Western Union Telegraph office, there located, and Col. C. M. Morse, division superintendent of the Alton, were the men who made the experiment and installed the apparatus. A line was strung from the telegraph office to the office of Col. Morse, at the Alton depot. A committee of business men were invited to investigate the service and pronounced it very unsatisfactory. Among the members of the committee were W. E. Veitch and the late J. L. Morrisson.

The first company organized for the promotion of telephonic communication in this city was started by F. M. Dunn and the late Edward King, and these men built the first exchange. Later the company sold out to the Bell Telephone company, who have maintained an office in this city ever since.

The first instrument was installed in the Jacksonville National bank and number has ever been No. 1. The Fitzsimmons & Kreider Milling Co. is still reached when No. 2 is asked for and the Central Insane Hospital was and is now No. 3.

Jacksonville was honored by a visit from Dr. Alexander Graham Bell who was entertained at the home of Dr. J. E. Bradley, at that time president of Illinois college. The reception given at the Bradley home in honor of Dr. Bell and the address which he was induced to deliver in the college gymnasium was one of the many delightful entertainments provided for the college and the people of Jacksonville by President Bradley and his estimable wife.

Dr. Bell spoke in the college gymnasium on the subject of the "Transmission of Sound by Means of Radiation." His lecture was heard by a large audience and a question box was opened at its conclusion. One of the questions led to his explanation of the principles which led to the discovery of the X-ray by Roentgen. He was also asked regarding the possibility of perfecting the flying machine and he stated that he expected to live long enough to see aerial navigation perfected and to travel by the aerial route.

Dr. Bell is indeed one of the world's benefactors, and unlike a great many who endow their generation and all time by the result of their own patient research and investigation, has lived to reap a large share in the financial harvest which his invention has brought to many, and what perhaps has been a greater pleasure, has witnessed the almost universal introduction of the telephone into every land where civilization has taken up its march.

Dr. Bell is a man philanthropically inclined and his services rendered toward the perfection of a system of communication for the deaf months ago

to equal consideration as being among the men who have made mankind better for their having lived.

## Once Paid For Women.

They come with the most delicate companions of the fair sex, the late, the New York Press. Although every little while the late has been tried without success, it has been a topic to seriously in Lenox that the season is likely to be a record one for women's walking sticks. Miss Hengelmüller, wife of the Austrian ambassador, soon after she arrived in Lenox this autumn was seen walking her way about with a small white cane. She never forgot it or left it at home and even carried it on her frequent trips to the Lenox club or to the post-office. Of course her fan found many followers, for those who hadn't dared try it before felt no hesitancy now that they could find themselves in such good company, and canes became accepted with morning attire. Among those who carry them are Miss Charlotte Barnes, who brought one from abroad which is trimmed with a huge bow of ribbon; Miss Constance Bacon, whose walking stick is the identical luxury with the bow, and Mrs. Archibald Mackay.

**KNOCKED DOWN BY TRAIN.**

Robert Landreth was knocked down by a Wabash freight train Wednesday evening about 5:30 and seriously injured. He is in company with a man by the name of Schofield, were walking west on the Wabash track going home from the car shops, where they are employed. A freight train which was switching in the yards at the time, was backing up from the east and as they failed to hear it, Landreth was struck in the back and knocked down, at the side of the track. As to the full extent of his injuries it is not known, but one leg is badly bruised and he is injured internally.

Mr. Landreth was employed by the city as patrolman for some time and he has a large number of friends who will wish him a speedy recovery.

## ROBERTSON'S SALE

One roan Don McGregor gelding, family horse; 1 roan match team, 4 and 5 years old, by Bermuda Boy; 1 Diamond King combination, 4-year old, gentle, safe and speedy; 1 bay mare, good driver; 2 black 3-year old saddlers; some good, heavy mares, 3 to 5 years, broken. Some good Jersey and Short Horn, fresh and springy cows; some good sows soon to farrow; 3 incubators; steel hay and stock rake and some harness.

## COAL SITUATION.

The coal situation is getting to be something serious. Our local dealers state that the price is advancing so fast that they cannot tell from one day to another what price will be asked at the mine. The strike situation is such that all railroads and steam plants are storing such large quantities of coal that the mines cannot produce coal fast enough to supply the demand. Some of the local dealers have nerve enough to order even at the advance prices and it begins to look like coal will be selling from \$4 to \$5 a ton within a few days.

## FINE MAIL CAR.

S. E. Snow, mail clerk running between Bloomington and Roodhouse, is piously proud of the new mail car No. 554 recently put into service on his run. The car is built after the model exhibited at the St. Louis world's fair and has the most modern equipment for use in the distribution of the mails. There is a lavatory and clothes closet, besides other conveniences for the use of the clerk. The car is lighted with kerosene light and is in every way complete.

## "ACCEPT OR REJECT HIM"

"THERE IS NO ALTERNATIVE" WERE WORDS

Driven Home at Tabernacle Meeting by Dr. Conoley—Dr. Culpepper Will Address Afternoon and Evening Meetings Today—Temperance Address Tonight.

The severity of the weather had an effect upon the tabernacle meeting Wednesday night and while a large audience was present there were several rows of vacant seats in the rear of the building.

After several inspiring songs Rev. O. B. Culpepper announced that his father was much better and will speak especially this afternoon to mothers and wives and although evening was invited his remarks would be directed particularly along this line. To night Dr. Culpepper will deliver the famous Temperance address postponed from Tuesday evening.

The chorus sang several stirring selections, and then Brother Johnson, of Denver, Colo., offered an earnest and feeling prayer.

Dr. C. M. Brown made the offering appeal and urged greater liberality on the part of those present and these holding telephone receivers at their ears. He stated that he knew that there were a good many present and at the other end of the megaphone connection who were gold men and silver men, but when the collection was counted it seemed that there were also a great many copper men present. He hoped that to night there would be a greater evidence of silver and gold men. Dr. Conoley shouted "amen" to these remarks and asked all present who were in sympathy with the sentiments of Dr. Brown to express themselves in like manner. Many responded throughout the audience and a beautiful "amen" from a young boy on the platform whose voice has been heard with pleasure during the services of song created quite a bit of laughter and applause from the audience.

Dr. Conoley was the speaker of the evening and said in part: As a means of preface to his thought of the evening he told the story of Barabas and Jesus when the choice was made by the populace after Pilate had evaded the issue by passing the responsibility from his own shoulders onto the shoulders of the people. Here was an issue that was before Pilate and he had to meet it, but instead of meeting it he tried to dodge it and in this attempt he made a most dismal failure, a colossal failure, one that has been known of all men since that time to this.

"I want to say to you that if you do not accept Jesus Christ, you reject Jesus Christ. I want to be fair with you, however. It is not your purpose in your heart to reject Christ. You are just putting off the decision. You are putting off to night until tomorrow night or the next night. But remember friends that if you die before you make this decision you reject Jesus Christ. And if you should die what would your friends do. They would at once send for a Christian minister and ask for the Christian offices which you had refused in your life. I tell you it is a practical rejection if you do not accept him. You put yourself in this position. I will reject Him for the present and will take the consequences.

"Some say I stand here as a professional evangelist. People say, 'Oh, he's doing it for a living just like any other business man working for a living.' Now I want to say something to you frankly but kindly. I don't care a snap of my finger for the salvation of your soul personally. I expect to stand before thousands of people just like you. I am only human like the rest of you and the only reason I stand before you as I do, separated from wife and home and opportunity to accumulate wealth is because I have the love of Jesus Christ in my heart and wherever I see a fallen or sin sick and suffering man or woman, I yearn to tell them of His love and what it can do for that fallen soul. I tell you, you need Jesus Christ now and hereafter. You need Him in your business and every day life. You have got to go through the valley and the darkness and you'll need him.

"Who is there who has not come to know that there are times when human sympathy will not comfort, or money will not relieve. It's one thing to look down upon your dead and another to die yourself. You look upon the face of your dead and you say your 'good byes' and maybe repeat the words, 'we'll meet again up yonder.' Now I put it to you. Who taught us the hope of meeting up yonder? It was none other than Jesus Christ. Death is the common enemy of all mankind. Men and women who need Jesus Christ now. You will need him in the dying hour. He wants to come into your life. He wants to help you to night and hereafter. What will you do with Jesus Christ?"

The sermon of Dr. Conoley had to be heard to be appreciated. His auditors were deeply stirred by his words and as he told of death bed scenes where Christians had approached with confidence the dying hour, many were moved to tears. The remarks of the speaker were reassuring to Christians and appealed strongly to the hearts of non-Christians.

Rev. O. B. Culpepper extended the invitation and amid the singing of a beautiful hymn a number came forward and declared their intention of becoming followers of Jesus Christ.

## OBITUARY.

Ross Mirlin Rexmont, youngest son of John and Frances Rexmont, was born five miles north of Carrollton, Feb. 7, 1880, and died in Jacksonville Monday, March 12, at the age of 26 years, 1 month and 5 days. Although he was confined to his bed but two weeks previous to his death, he had been under the care of a physician for the past two years.

Both father and mother preceded him in death, the mother on Oct. 10, 1897, and the father March 16, 1904. He leaves to mourn his loss three sisters, Mary Rexmont, Mrs. Walter Caley and Mrs. James Caley, and one brother, Will.

The deceased was a bright and energetic boy, beloved by a host of friends who will sadly miss him from their midst. He had borne the two years of physical suffering heroically, bearing his pain uncomplainingly. His hope of heaven ever shown brightly, and at the last he expressed himself as prepared to go.

The remains will be taken this morning via the C. & A. to Berdan, where interment will be made.

A new line of embroidered linen stocks and turnovers, Dickcys and cuff and collar sets just received at Herman's at popular prices.

## UNDERWENT OPERATION.

Yesterday morning Miss Nellie Magill, of the force at Hoffman Bros., underwent a severe operation which required several hours. Dr. C. E. Black was the surgeon and was assisted by Dr. Josephine Milligan. Last evening the patient was resting as comfortably as could be expected and the young lady's numerous friends will earnestly hope for a favorable outcome.

M. D. Shaw, superintendent; J. P. Hamsey, general manager, and his secretary A. C. Woody, J. K. Howard, superintendent of maintenance of way; J. Harlan, superintendent of bridges and buildings and D. C. Frederick, superintendent of car service of the C. P. & St. L., were in the city looking after the company's interests yesterday.

Henry Wright Wednesday received six car loads of cattle from Kansas City via the Wabash.

Wednesday was pay day on the Alton.

John R. Fish of Peoria, division freight agent of the Alton, was in the city yesterday on company business.

Thomas Bennett, car inspector for the C. P. & St. L. at Havana, was in the city yesterday calling on friends.

The pay car on the C. P. & St. L. will be in the city this evening about 7 o'clock.

Official notice of the change in time of the Chicago, Peoria & St. Louis railway has been made.

The change in schedule is effective Sunday, March 18. The trains on the branch between Havana and this city have not been changed at all.

On the main line, from Peoria to Petersburg there is no change. Between Petersburg and Palmyra and St. Louis and Springfield are the greatest changes.

Traveling Auditor Pollard of the Burlington was in the city Wednesday and was engaged all day in checking out J. P. Spahnower as cashier of the local freight house and checking in Thomas McNamara.

Mr. Spahnower has acted in the capacity of cashier for the past two years and has been a faithful employee, and it is with regret that his fellow workmen see him leave.

Mr. McNamara, who succeeds him as cashier, has been employed a number of years as day operator, a place which he has held down to the satisfaction of all. His place will be taken by Thomas Chippens.

SHIP NOTES.

SAVE YOUR HEALTH

It is Worth Saving and Some Jacksonville People Know This.

There are some people who take their lives in their hands by continuing to neglect their kidneys, when they know these organs need help.

Sick kidneys are responsible for an immense amount of suffering and ill health, but there is no need to suffer or to remain in danger when all diseases and sufferings arising from sick kidneys can be quickly and permanently cured by the use of Doan's Kidney Pills.

Here is the statement of one Jacksonville person who has reclaimed good health by the use of this remedy:

A. H. Coffman, of West Morgan street, dealer in second hand furniture and stoves, says: "Across my loins just over those organs there was a heavy aching pain. I could not rest long, either sitting or lying, and in the morning I always felt more tired and depressed than when I went to bed. The pains became more persistent and the kidney secretions were highly colored and irregular; in fact, my general health was run down. I tried different medicines, but remained the same. Seeing Doan's Kidney Pills highly recommended, I got a box at Dr. H. Lee Hatch's drug store and used them. They worked like a charm, giving a healthy and natural action to the kidneys and relieved my back of distressing aches and pains."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—DOAN'S—and take no other.

## OUR NEIGHBORS

### YATERSVILLE

We had almost lost faith in the ground hog, but Sunday morning he proved that he was still on deck, as we undoubtedly and the largest snow of the season.

Charles McKee of Bloomington, an engineer of the Alton, has been visiting relatives here for several days.

Miss Sadie Parrott spent Sunday with Mrs. Vestly Holmes.

Charles Brown has moved to Broomhouse work for the C. & A. Ry.

George Harris who had his foot injured at work by the accidental discharge of a revolver is improving very fast and will soon be around again.

Miss Katie Manning spent several days here last week visiting old friends.

David Tignor has removed from Iowa back to the old home place.

Thomas Manning has returned from St. Louis where he has been visiting his brother.

William Kennedy has moved from here to the Wollner place north of Peoria. Notwithstanding the bad condition of the roads K. Green was calling on friends here Sunday.

Mrs. Dolly Means is convalescent and is to be out.

Quite a number from here went to Oakland Saturday.

Geo. Naulty shipped two cars of hogs to St. Louis market last week.

Jeff Davis lost a very valuable horse last week.

John Lewis, Henry Means and C. H. Huey were among those in Jacksonville.

William Waters, while splitting wood last week had the misfortune to cut his foot very badly with an axe. Dr. Harris treated the wound.

Fred. Dobby Wheeler is still on the sick list.

Ann Peggy Coker has moved on the old school farm.

Josee Hodgson who is working in Jacksonville spent Sunday with her parents.

There will be preaching at Berea next Sunday at the usual hour by Rev. C. E. Smith.

C. V. McDaniel our rural mail carrier went to Jacksonville Saturday and Port Smith made the route.

### JOY PRAIRIE

R. P. Joy of Jacksonville visited T. H. Pratt and wife Sunday.

William Perbix sold to Elmer Stiles a team of horses last Saturday.

Mrs. Alice Joy spent Sunday at the home of her relatives in Decatur.

Henry Anderson is all smiles over the arrival of that new girl at his house.

Montie Funk and wife visited relatives at Morgan City last Friday.

Mrs. Charles Joy spent Saturday afternoon very pleasantly at the home of Mrs. Ellen Pratt.

Lincoln Cowdell commences work this week for Mr. Middleton near Ebenezer.

Mrs. Ed Joy called on Mrs. Pratt last Saturday.

Largest snow of the season fell Sunday.

Ernest Carter went calling last Sunday evening, but we being modest, didn't let him where.

### REPORT ON CHARITY WORK.

At a recent meeting of the board of Associated Charities the following report was made by the superintendent:

"To one who sees continually what wants to be done, our organization seems a very small force, and yet we may hope in progress that may not be apparent. Some one has said that an engine of one cat-power working all the time is more effective than one of forty horse-power standing idle."

It is gratifying to report that public interest seems to be on the increase and individuals and societies lending a helping hand here and there and yet we can only accomplish the best results by perfect co-operation of committees, in churches and societies who stand ready to aid the poor, to whom we could properly refer cases that come under our observation. We do not presume to direct their work, but when this much felt want is fully complied with our labors as a charity organization will be more efficient.

The Woman's club offers to aid in the support of a loan chest in which will be kept bedding, night dresses, hot water bottles, bed pans and other articles needed in the sick room.

I expect some good results from this undertaking; several physicians have said they thought it would be a good thing.

Promissory giving to house-to-house beggars is to be deplored. A man and woman have been living by begging for several months and they have met with such encouragement that they prefer it to work. We have made repeated efforts to give them employment but they do not care to work. The woman said: "I am not willing to send the children away; if we did not have them the people would not help us. I am a pretty good beggar, I can raise a few dollars in a short time."

This couple, too incompetent to earn a living should be in the county home, and the children should be properly cared for; but just so long as the parents can live by begging, they will not consent to anything better.

Since our last meeting there have been received at this office thirty-one persons who called to consult or to offer aid; forty-four applicants for aid, fourteen of whom asked for work, which was secured for ten; eighteen families have been dealt with, eight new ones and ten recurrent ones; thirty-five visits have been made and nineteen letters written.

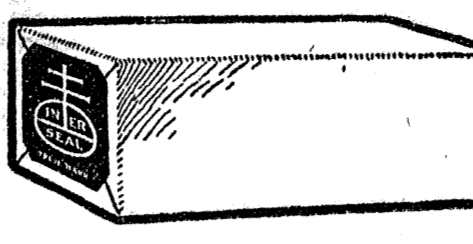

Two boys, habitual truants, were through the juvenile court law sent to the St. Charles Training School for boys, where they will be taught practical farming and other work.

Parents are at fault in the majority of cases where children are out of school, and since the law now provides for punishment of parents, who by their own carelessness and neglect, contribute to the dependency and delinquency of their children a few simple cases might produce some good effects."

### NOTICE.

Local freight, for our local freight south, must be at the C. B. & Q. freight office not later than 8:30 a. m. in order to go south at 9 a. m. Freight received after this time will be held over until next day.

## Plain Words to Mothers

Is your child peevish, nervous, fretful, restless? Is it continually disturbing you at night? Is it troubled with sour stomach, diarrhea, fits and spasms, cold hands or feet, uncertain appetite, flushed cheeks, blue circles under the eyes? These indicate worms, and neglect to cure might result fatally. Give a few tablets of **Kickapoo Worm Killer**—the safest, surest medicine for children—and the worms will pass away at once. It is a pleasant candy tablet, and absolutely harmless. In cases where there are no worms, but the child is suffering from a generally run-down condition

## KICKAPOO WORM KILLER

will act as a gentle but sure tonic, cleansing and sweetening the system, and leaving benefits obtained by no other medicine. Read what a prominent Chicago woman says of it:

"My daughter Louie complained so frequently of pains in the stomach and grew so pale and thin that I thought she had some indigestion. She would often cry and toss about when sleeping, and I became alarmed. I finally gave her Kickapoo Worm Killer. In three days she passed over 40 worms, from 1/2 inch to 1 1/2 inches long. The medicine acted promptly, and with no harm to the child. For three days she passed over 40 worms, from 1/2 inch to 1 1/2 inches long. The medicine acted promptly, and with no harm to the child. For three days she passed over 40 worms, from 1/2 inch to 1 1/2 inches long. The medicine acted promptly, and with no harm to the child."

Kickapoo Worm Killer is also a wonderfully efficient remedy for all stomach and intestinal trouble of adults. It cures by aiding Nature, not by merely stimulating. We will give medical advice concerning you and your children, and samples of Kickapoo Worm Killer free, Regular box, 25 cents, druggists or by mail.

## LITERBERRY

Mrs. Anna C. Shively the evangelist of Kansas City, who has had such great success elsewhere, was invited by the friends of Literberry Baptist and Methodist organizations to hold a union meeting. She accepted the invitation and the union meetings are now being held in the Baptist church, commencing on last Friday night. Rev. J. A. Murray and the young people are leading the singing. It is hoped that the kind of preaching she does will revive the Christian people of Literberry to activity and wake them from their slumber. Miss Esther Asplund of Little Indian visited with Mrs. J. A. Murray over Sunday. Miss Mattie Litter visited her mother over Sunday. Quite a number came from Little Indian to attend the revival meetings at the Baptist church Saturday night. The revival meetings at Zion closed with 56 additions to the church and Thursday evening an Epworth league was organized. Rev. Mr. Breach filed his appointment at the Baptist church Sunday. Mr. Litter and family are entertaining the evangelist.

**AT THE GRAND.**

The Rentfrow Comedy Co. appeared at the Grand Wednesday matinee and evening. The matinee was "Camille," played to an audience of about 300, and gave general satisfaction.

The evening bill was "La Belle Marie." The audience was of small proportions, but the production was given a good reception. The specialties were especially well received. "Midnight in Chinatown" is the bill for to night.

**OYSTER SUPPER.**

Members of M. P. L. Council No. 209 enjoyed an oyster supper at the Talbot cafe after an interesting meeting Wednesday night. A pleasant feature of the meeting was an entertainment given by a number of children.

**PRIMARY LAW  
INFORMATION**

Further Opinion of Attorney  
General Stead on Illinois  
Enactment.

Springfield, March 14.—Attorney General Stead, in an opinion rendered yesterday, holds that the new primary law applies only to the parties which at the last general election polled 10 per cent of the vote of the state, and that under this provision the new law applies only to the Republican and Democratic parties, and in places where these parties failed to hold primaries March 3, as a result, for instance, these two parties can not get their names on the official ballot.

He holds further, that where nominations of candidates for city offices have heretofore been made by "Citizens," "People's," or some other parties not Republican and Democratic, in cities of over 100 population, and such party has polled at least 2 per cent of the total vote of the city at the last preceding election, such party may nominate by caucus or convention, as provided for by section 1 of the Australian ballot act, the certificate of nomination being filed fifteen days before the election with the city clerk; such nominations can not be made by petition. Independent candidates must have filed their petition by Friday, March 2, on or before 12 o'clock noon.

If the nomination of candidates for city offices has heretofore been made by political parties that is, by the Republican and Democratic parties—and if no independent candidates have filed petitions, then the city clerk will have no certificates of nomination or nomination papers before him with which to make up the official ballot. In such case the city clerk will make up the official ballot by printing the name of the office, and underneath thereof a line on which the elector may write the name of the person of his choice, and to the left of said line a square, and so on, for each office to be filled. The elector may write in the name of the person of his choice and place a cross in the square to the left and opposite the name.

Was Finding of Jury in Bishop Case—Venue Men Were Out Three Hours—Minors Kept From Court Room by Order of Court.

Numerous citizens continued to find their way to the circuit court room where the Bishop case was in progress Wednesday and where the jury brought in a verdict of guilty and fixed the amount of fine at \$50 and costs.

Examination of witnesses was continued at the morning session and by noon both sides rested and arguments of counsel were made immediately after court re-convened in the afternoon.

Esquire Arenz made a wise order in excluding minors from the court room and an officer was placed at the entrance to see that this order was enforced. All of the attorneys in the case addressed the jurors, and their speeches occupied the best part of two hours. About 3 o'clock the case was given into their hands and they retired to the jury room.

Many thought that they would return a verdict at once, and after the first hour and no return, "prophecies" were assured of a long jury and speculation was rife as to the result of the deliberations of the six men to whom this notorious case had been committed. About 6:30, however, an agreement was reached and the defendant, Belle Bishop, was declared guilty of being the keeper of an assignation house and her fine was fixed at \$50 and costs.

Attorney Haigrove announced that the case would be appealed to the circuit court.

Rumor on the street has it that the jury were in agreement from the first ballot on the question of guilt or innocence but that the deliberation was caused by the difference of opinion as to the amount of fine that ought to be imposed.

**Some Reasons**

There are many reasons why these Buck's ranges are the best in the world. Three of them are:

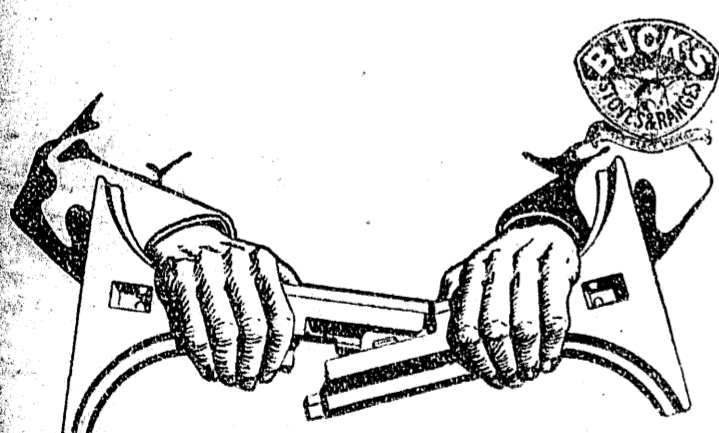

They are built from the very best of material by the very best of workmen.

They are so constructed as to combine beauty with quick heating, fuel-saving qualities.

They have all the improvements and advantages found in other ranges and then some.

**Buck's Range Tops Heat  
Up Quickly**

The lids, while strong and durable, are so thin that the mere heat of a match will affect them. A quickly heated stove lid means a quickly prepared meal.

**Buck's Range Tops are  
Always Level.**

The long centers are made in two inter-locking pieces, instead of one. Room for expansion and contraction is allowed; warping of tops is impossible.
